Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner provided reasons why he made paper No. 6 final. The amendment filed on 4/30/2003 narrowed the scope of the invention by positively reciting a new method step of "producing metallised protrusions on two contact pads on the chip" (claim 1, lines 2-3). The amended method step necessitated the new ground of rejection by Kohama et al (5,856,662). Further, applicant is advised of a proper petition under 37CFR 1.181.
